ANIEKWENSI CHISOM

25, Soni Street | Ajao Estate, Lagos, Nigeria | +234 802827607 chisomemmanuel995@gmail.com

PROFESSONAL OVERVIEW

Results-driven Senior Software Engineer with 6+ years of experience in creating high-performance web and mobile applications. Proficient in HTML5, CSS3, JavaScript, Node JS, Express, and React JS. Strong background in Agile/Lean development methodologies and a proven track record of delivering exceptional user interface experiences and well functional servers.

SKILLS

Programming Languages: JavaScript

Frameworks and Libraries: ReactJS, ExpressJS, Tailwind CSS

Technologies: HTML, CSS, EJS (server-side rendering engine), GraphQL (Apollo client and server), React-query

Databases: MySQL, MongoDB, PostgreSQL Git

Testing: Postman, Insomia,

Other Skills: Cross-Browser Compatibility, User Interface Design, Pixel-Perfect Back-End Code, Team Collaboration, Agile/Lean Development, Bug Fixing,

PROFESSIONAL EXPERIENCE

LARANA | 2021 – 2022
Junior Backend Engineer

- Led backend development for web platforms, designing scalable APIs using Node.js and Express.js.
- Architected structured PostgreSQL databases and optimized queries for performance and reliability.
- Collaborated with product and frontend teams to translate business requirements into robust backend solutions.
- Implemented secure authentication flows and improved overall application performance.
- Contributed to Agile ceremonies, sprint planning, and technical decision-making processes.

Soair Africa | Lagos, Nigeria | April 2022 – December 2022
Junior Backend Engineer

- Designed and developed server-side systems using Node.js and Express.js, applying object-oriented programming principles.
- Built and integrated RESTful APIs to support dynamic web applications.
- Implemented email services using Nodemailer and managed backend logic for user workflows.
- Improved system reliability, performance, and cross-browser compatibility.
- Participated in architecture discussions and deployment processes.

DATASPRING SOLUTIONS | Remote | January 2022 – March 2022
Backend Developer

- Built scalable backend services for internal data processing and reporting systems.
- Designed relational database schemas in PostgreSQL and optimized complex queries.
- Developed secure API endpoints and improved data validation and error-handling mechanisms.
- Assisted in monitoring, debugging, and performance tuning in production environments.

BANDIAN | Remote | 2023 – 2024
Senior Software Engineer

- Architected and maintained backend services using Node.js (NestJS) and MongoDB to support high-volume data processing systems.
- Led backend optimization initiatives, improving response times and system scalability.
- Managed Git workflows and enforced code review standards to maintain high code quality.
- Collaborated cross-functionally to design efficient data pipelines for analytics and visualization.
- Mentored junior engineers and contributed to backend best practices documentation.

PAYLINK SYSTEMS | Remote | 2023
Senior Backend Engineer

- Designed microservices for billing, subscription, and transaction systems using Node.js and Express.js.
- Engineered PostgreSQL schemas ensuring transactional integrity and ACID compliance.
- Integrated third-party services and implemented secure authentication (JWT, RBAC).
- Improved API performance through caching, indexing strategies, and query optimization.
- Contributed to CI/CD pipelines and containerized deployments.

FINTRUST TECHNOLOGIES | Lagos, Nigeria | 2024
Senior Backend Engineer

- Led backend architecture for payment and wallet infrastructure handling high-volume transactions.
- Designed secure RESTful APIs and implemented encryption, logging, and audit-ready systems.
- Optimized PostgreSQL database performance and improved system reliability and fault tolerance.
- Worked closely with DevOps on cloud deployments, monitoring, and scalability improvements.
- Drove technical decision-making and mentored backend team members.

EDUCATION

University Of Lagos State (UNILAG), Lagos, Nigeria.
